At the last regular meeting of Salt Lake council 1517, the entertainment committee announced that it had arranged for the regular annual excursion, the date of which is to be Saturday, Sept. 7. So it is presumed that this section of the co

there is in the state of Utah. So it is presumed that this section of the county has an excellent hance in the race for the first factory.

Active work to land the factory in this favored location is already under way. At a meeting of the priesthood of North Sanpete stake, held in this city yesterday, this matter was one of the most important considered. Bishop C. A. Madsen of Gunnison, the father of the sugar beet idea in this county, was present for the purpose of explaining the proposition and giving the question all the support he could. The action taken was very favorable to the factory, but nothing definite will be known until the next meeting, next month. Every one of the ward authorfties promised to take up the matter with his own people, and to urge them to do everything possible towards the furthering of the idea, and expressly to contract this year to raise the beets and promise to put their contracted land into good shape. The enthusiasm displayed augurs well for the success of the factory in northern Sanpete.

WON'T STAND BUMS.

Bingham Officers Will Prosecute Professionals.

Bingham Canyon, Aug. 31.—As the pay days at the mines approach people here are beginning to feel alarmed for fear that the disgraceful scenes that were witnessed this month should be repeated. At the last pay day the town was infested by professional bums and thieves, and for several days citizens who had to be on the streets late at night were continually in fear of being held up.

Special Officer D. W. Teachenor has been communicating with headquarters in Salt Lake, and it is quite probable that several officers will be sent here on the occasion of the coming pay day, which takes place on the loth.

In conversation with your correspondent, Officer Teachenor last evening said:

"The blame for these disgraceful occurrences lies somewhat with the citizens. They dig down in their pockets and give up money to these bums who are the cause of all this. There is work for everybody here, so that no excuse can be given for any beggars loitering around the streets. These men get hold of money and keep buying beer by the bucket ful. I will not stand for it any more, and will prosecute any of these tramps whom I will prosecute any of these tramps whom I find in Bingham."

He was hunting chickens upon Bail mountain, just east of town. While standing on a rock he allowed his gun to slip from his hands. The hammer, although down, struck the rock. The result was that the gun was discharged and the boy received the contents. Most of the shot struck his forearm on the under side. One are the contents. Most of the shot struck his forearm on the under side. One artery was shot away, while another was struck so as to cause it to bleed profusely. Some of the shot struck his side and upper arm without causing much trouble. He was taken to the office of Dr. Coffman, who dressed the wounds.

The preliminary hearing of Frank James for the murder of Jack Fitzgerald last Sunday was held today and the defendant was held for the Third district court on the charge of murder in the first degree. Judge Powers appeared for the defendant and tried hard to have the prisoner bound over in the sum of \$5,000 for murder in the second degree, but County Attorney Callis downed him by getting a decision as above stated. The hearing was held before Justice of the Peace Wilson.

LOSING CUBA'S TRADE.

Washington, Sept. 1.-Some figures re-Washington, Sept. 1.—Some figures re-lating to the export and import trade of Cuba for the first five months of this year, as compared with a similar period last year, just published by the division of insular affairs, war department, in-dicate that radical changes are going on in the trade, and that the United States and other North American coun-tries are the sufferers in this turn of trade

Thus it is shown that the exports from Cuba for the period mentioned this year were valued at \$38,033,330, as against \$43,409,055 for the same period last year, while the imports for the same period were worth \$26,997,817, as against \$19,955,492 for the corresponding period in 1900. The imports from the United States diminished 6.4 per cent, and that of other North American countries 15.6 per cent, while Cuba shipped to the United States during the same period 11.1 per cent more goods than the preceding year, and to the other North American countries 148.8 per cent more.
